

Product Description

Dyno Battery offers high quality acid resistant polypropylene (black) and polyethylene (white) battery storage boxes for your convenience and most demanding applications.

These heavy walled boxes are seamless for complete containment. Durability and strength are improved by reinforcing ribs. Most boxes are notched both at the top of the box and the lid, for connecting cables.

Group 27 boxes can hold one or two standard 27M size batteries. The 27 Double box is actually a 3H box.

For mobile applications, nylon web hold down straps are available to secure the box without compromising acid containment.

Battery Box Dimensions

27 Single:	13 5/8" x 7 5/8" x 9 5/16"
27 Double (3H):	15 1/4" x 12 15/16" x 12 7/8"
