

### Product Description

Dyno Battery offers high quality acid resistant polyethylene battery storage boxes for your convenience and most demanding applications.

These heavy walled boxes are seamless for complete containment. Durability and strength are improved by reinforcing ribs. Most boxes are notched both at the top of the box and the lid, for connecting cables.

Each 8D box can hold one standard 8D size battery OR 3 6V Golf Car batteries (Dyno models D105 or D125).

For mobile applications, nylon web hold down straps are available to secure the box without compromising acid containment.

### Battery Box Dimensions

22 1/8" x 12 1/4" x 11 3/16"

### Battery Box (w/ Cover) Dimensions

23" x 12 7/8" x 11 3/8"
