

GC2

GC2/4

Product Description

Dyno Battery offers high quality acid resistant polyethylene battery storage boxes for your convenience and most demanding applications.

These heavy walled boxes are seamless for complete containment. Durability and strength are improved by reinforcing ribs. Most boxes are notched both at the top of the box and the lid, for connecting cables.

Each GC2 box holds two standard golf cart size batteries (Dyno models D105, D125 or 8VGC). GC2 Triple is an 8D Box. Now available in GC2/4 (holds four GC Batteries).

For mobile applications, nylon web hold down straps are available to secure the box without compromising acid containment.

Battery Box Dimensions

GC2 Double:	15 1/16" x 10 15/16" x 12 7/8"
GC2 Triple (8D):	22 1/8" x 12 1/4" x 11 3/16"
